

JNOEC

XSP-136 Biological Microscope

Visit us at: www.jnoec.com

Email: lzy@jnoec.com

Suitable for teaching Elementary, Junior High and High School alike, the XSP-136 Series is versatile, durable and cost-effective. Interchangeable Monocular, Binocular, Trinocular and Dual-view Heads offer multiple viewing options. Dual-View Head can be used as a video tube, teaching body or for 2 students simultaneously. The 103-102 are scaled down to be even more affordable. This series also offers many "student-proof" features.
